

# List of GoodData Sub-processors

Updated: 07/18/2022

GoodData Corporation uses services of certain vendors for processing of customer data while providing services to its customers ("sub-processors"). In prior to engage any of a third party sub-processor, GoodData thoroughly analyzes and evaluates the impact of such engagement on privacy aspects in the context of processing within GoodData products.

Current list of GoodData sub-processors providing services which might impact GoodData's customers:

<b>Name</b>	<b>Purpose of processing</b>
Rackspace US, Inc.	Hosting centre provider in US and EU
Amazon Web Services, Inc.	IaaS provider, Infrastructure in US, EU and Canada
Google, Inc.	IaaS provider, Infrastructure in US
Microsoft Corporation	Desktop-as-a-Service environment provider
KMS Technology Solutions, Inc.	Professional Services Outsourcing
