List of GoodData Sub-processors

Updated: 12/13/2022

GoodData Corporation uses services of certain vendors for processing of customer data while providing services to its customers ("**sub-processors**"). In prior to engage any of a third party sub-processor, GoodData thoroughly analyzes and evaluates the impact of such engagement on privacy aspects in the context of processing within GoodData products.

Current list of GoodData sub-processors providing services which might impact GoodData's customers:

Name	Purpose of processing	Location of processing
Datacenter providers (applicable for GoodData Platform and GoodData Cloud; location depends on Company's choice)		
Rackspace US, Inc.	Datacenter (private cloud) provider	United States*, United Kingdom
Amazon Web Services, Inc.	Datacenter and IaaS (public cloud) provider	United States*+, Canada, Australia, EU (Germany and Ireland)
Google, Inc.	IaaS (public cloud) provider	United States
